

Press Release 17-09-2008

HUYNHBANG Engineering introduces ROHR2 Program System in Vietnam

Unna, Germany, September 2008

HUYNH BANG TRADING & ENGINEERING SERVICES COMPANY. Ho Chi Minh-City, Vietnam, is business partner of SIGMA GmbH, Germany for the sales and support of the CAE products ROHR2 and SINETZ in Vietnam. In October 2008 the program systems ROHR2 and SINETZ are introduced in several meetings and workshops.

HUYNH BANG ENGINEERING is the leader for supplying equipments and machines for all industries, especially for thermal field with 100 % accessories and machines imported from Europe.

The cooperation with SIGMA and HUYNHBANG chairman Mr. Ngay Van Huynh is basing on the long relationship of Mr. Huynh in German Piping Construction business. Mr. Huynh, graduated in Stuttgart, Germany, builds on an over 30 years experienced working in the Industrial Engineering field.

Along with his experiences in the Vietnam market he is the perfect partner for SIGMA in this area.

ROHR2 and SINETZ are products of SIGMA Ingenieurgesellschaft mbH, Germany.

ROHR2 is the one of the leading Pipe Stress Analysis tools, a standard software for static and dynamic analysis of piping systems and structural frameworks. The software is equipped by a range of additional features enhancing the engineer's daily job, as there are FEM analysis, isometric capabilities and a wide range of interfaces covering the leading CAD/CAE systems.

SINETZ, pressure drop and temperature loss analysis, completes the product range by offering a tool for the analysis of compressible and incompressible media in piping systems, integrated into the ROHR2 software environment.

Started and created by one of the main software vendors in Europe - mbp in Germany - in the late 1960s, ROHR2 continues its success by SIGMA from the end of the 1980s.

ROHR2 is the unique completely interactive piping analysis software and hence it offers significant time and cost reduction to your piping department.

SIGMA, established in 1989 in Dortmund, Germany has emerged as a partner of choice for leading international companies with its software and the wide variety of engineering services.

SIGMA is known as one of the leading engineering specialists in the Pipe Stress Business in Europe, offering field tested products, strongly adapted to the users needs.
