

**Press Release 18-05-2009**

**SIGMA at ACHEMA 2009**

Unna, Germany, May 2009

SIGMA Ingenieurgesellschaft was represented in partnership with ITandfactory GmbH (CADISON) at the ACHEMA 2009 exhibition in Frankfurt/Germany.

We say thank you to all program users and prospective customers visiting our stand at the ACHEMA 2009.

The ACHEMA as one of the leading trade fairs worldwide offers great opportunities for the presentation of our software products to the qualified audience: ROHR2 for pipe stress analysis and SINETZ for calculation of heat and pressure loss in piping systems. Particular interest was produced by our new product ROHR2FESU (Finite Element Analysis of sub-structures in ROHR2).

We would be very glad to welcome you at our website [www.rohr2.com](http://www.rohr2.com) or contacting us by phone or e-mail for further product details and technical discussion.

Your ROHR2 Sales Team

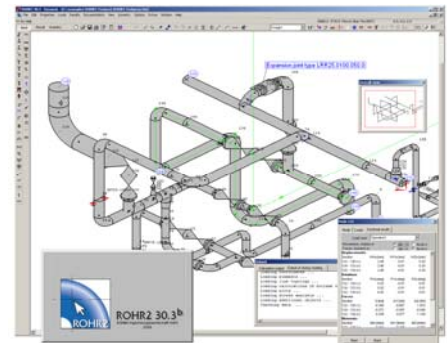

**About: ROHR2**

ROHR2 is one of the leading Pipe Stress Analysis tools, standard software for static and dynamic analysis of piping systems and structural frameworks.

The software is equipped by a range of additional features enhancing the engineer's daily job, as there are FEM analysis, isometric capabilities and a wide range of interfaces covering the leading CAD/CAE systems.

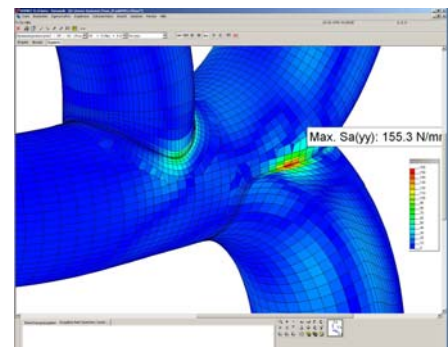

ROHR2 is developed continuously in order to incorporate the ongoing changes in the stress calculation codes and norms but also to improve the user interface and extend the capabilities of ROHR2 according to the users needs.

**About: SIGMA**

SIGMA, established in 1989 in Dortmund, Germany has emerged as a partner of choice for leading international companies with its software and the wide variety of engineering services.

SIGMA is known as one of the leading engineering specialists in the Pipe Stress Business in Europe, offering field tested products, strongly adapted to the users needs.
