

## Press Release 2009-06-19

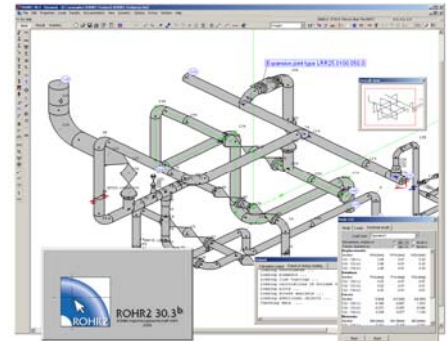

### Seoul Data System introduces ROHR2 Program System in Korea

Unna, Germany, June 2009

SEOUL DATA SYSTEM Ltd, Seoul, is introduced as business partner of SIGMA GmbH, Germany for the sales and support of the CAE products ROHR2 and SINETZ in Korea.

SEOUL DATA SYSTEM is well known as a specialist engineering & technology services company, focused on enhancing their client's product / project engineering efficiency and providing services for CAD / CAM / CAE products.

The cooperation with SIGMA and SEOUL DATA SYSTEM chairman Mr. Youn is basing on the long experience in distributing engineering software in Korea.

Along with his experiences in the Korean market he is the perfect partner for SIGMA in this area.

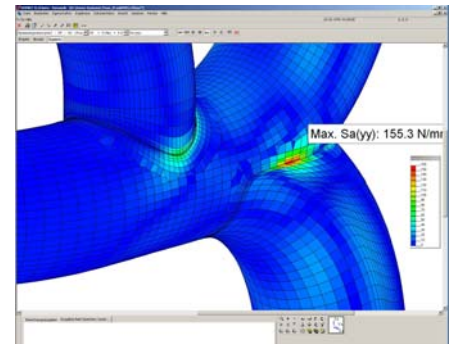

### About: ROHR2 and SINETZ

ROHR2 is one of the leading Pipe Stress Analysis tools, standard software for static and dynamic analysis of piping systems and structural frameworks.

The software is equipped by a range of additional features enhancing the engineer's daily job, as there are FEM analysis, isometric capabilities and a wide range of interfaces covering the leading CAD/CAE systems.

ROHR2 is developed continuously in order to incorporate the ongoing changes in the stress calculation codes and norms but also to improve the user interface and extend the capabilities of ROHR2 according to the users needs.

SINETZ is the design solution for Steady State Calculation of Flow Distribution, Pressure Drop and Heat Loss in Branched and Intermeshed Piping Networks for compressible and incompressible media

### About: SIGMA

SIGMA, established in 1989 in Dortmund, Germany has emerged as a partner of choice for leading international companies with its software and the wide variety of engineering services.

SIGMA is known as one of the leading engineering specialists in the Pipe Stress Business in Europe, offering field tested products, strongly adapted to the users needs.
