

## Press Release 2011-10-01

### EDSA Solutions Pte Ltd.

introduced as ROHR2 Sales Partner South East Asia

Unna, Germany, October 2011

SIGMA GmbH, Germany, today announced it has entered into a business partnership with EDSA Solutions Pte. Ltd. to better expand its territory for sales and support of for the sales and support of the CAE products ROHR2 and SINETZ in South East Asia: Singapore, Malaysia, Indonesia and Thailand.

This partnership was initiated in August 2011 when a team of EDS Asia visited SIGMA to finalize the partnership contract and to meet with some of the pipe stress experts in Germany. EDSA Solutions, is a great partner to SIGMA and this agreement exemplifies their dedication to increase position in the South East Asian engineering software market for its products; ROHR2 and SINETZ.

Teaming up with EDSA Solutions to distribute engineering software in the South East Asia region is an exciting development which will enable SIGMA to be in the current software market in Singapore, Malaysia, Indonesia and Thailand.

EDSA Solutions is well known as a specialist engineering & technology services company, focused on enhancing their client's product / project engineering efficiency and providing services for CAD / CAM / CAE products.

EDSA Solutions offers training on the products as well as product support led by its own staff who are experts in their respective fields.

### About: ROHR2 and SINETZ

**ROHR2** is the leading European Software for Pipe Stress Analysis, a standard tool for pipe static and structural framework analysis, covering a variety of specifications like ASME, ANSI, KTA, EN 13480, STOOMWEZEN D1101, BS 7159 and ISO 14692.

The software is equipped by a range of additional features enhancing the engineer's daily job, as there are FEM analysis (ROHR2FESU), isometric capabilities (ROHR2ISO) and a wide range of interfaces covering the leading CAD/CAE systems.

**SINETZ** is the design solution for Steady State Calculation of Flow Distribution, Pressure Drop and Heat Loss in Branched and Intermeshed Piping Networks for compressible and incompressible media.

### About: EDSA Solutions

EDSA Solutions, established in 2003, is a fast-growing company that specializes in computer software and support in engineering applications in various sectors and industries, including oil and gas, energy, building construction, mechanical designs as well as engineering consultancy.

### About: SIGMA

SIGMA, established in 1989 in Dortmund, Germany has emerged as a partner of choice for many international companies with its Software and the wide variety of Engineering services. SIGMA is known as one of the leading engineering specialists in the Pipe Stress Business in Europe, offering field tested products, strongly adapted to the user's needs.
